Lectures on Boundedly Rational Decision Making by
Paola Manzini and Marco Mariotti (University of London)

Presenters in Workshop

Hidekazu Anno (Waseda University)

Susumu Cato (University of Tokyo)

Yukinori Iwata (JSPS and Hitotsubashi University)

Kohei Kamaga (Waseda University)

Kazuya Kikuchi (Hitotsubashi University)

Takashi Kojima (Waseda University)

Kaname Miyagishima (Hitotsubashi University)

Nozomu Muto (Hitotsubashi University)

Yukihiro Nishimura (Yokohama National University)

Toyotaka Sakai (Yokohama National University)

Norihito Sakamoto (Ritsumeikan University)

Shin Sato (Keio University)

Ryusuke Shinohara (Shinshu University)

Takuma Wakayama (Osaka University)

Organizers

Koichi Tadenuma (Hitotsubashi University)

Naoki Yoshihara (Hitotsubashi University)

Contact us by e-mail: cces@econ.hit-u.ac.jp

Program

Saturday, January 10

10:00-12:00 Lecture 1: Boundedly Rational Decision Making Part 1

Marco Mariotti (University of London)

Lunch

13:15-14:35 Session 1: Mechanism Design

Chair: Akira Okada (Hitotsubashi University)

Toyotaka Sakai (Yokohama National University)

“Secure implementation in allotment economies” (Joint paper with Olivier Bochet)

Takuma Wakayama (Osaka University)

“Secure implementation in Shapley-Scarf housing markets” (Joint paper with Yuji Fujinaka)

14:50-16:10 Session 2: Social Preferences and Rationality

Chair: Naoki Yoshihara (Hitotsubashi University)

Susumu Cato (University of Tokyo)

“Quasi-decisiveness, quasi-ultrafilter, and social quasi-orderings”

Norihito Sakamoto (Ritsumeikan University)

“Collective rationality and fairness as no-envy”

16:25-17:45 Session 3: Evaluations of Opportunity Sets

Chair: Koichi Suga (Waseda University)

Yukinori Iwata (JSPS and Hitotsubashi University)

“Opportunity set values and welfarist social evaluation”

Kaname Miyagishima (Hitotsubashi University)

“Ranking linear budget sets”

18:00- Reception (Mercury Hall)

Sunday, January 11

10:00-12:00 Lecture 2: Boundedly Rational Decision Making Part 2

Paola Manzini (University of London)

Lunch

13:30-15:30 Lecture 3: Boundedly Rational Decision Making Part 3

Marco Mariotti

16:00-18:00 Session 4: Public Goods and Political Economics

Chair: Naoki Yoshihara (Hitotsubashi University)

Kazuya Kikuchi (Hitotsubashi University)

“Downsian model with asymmetric information: possibility of policy divergence”

Ryusuke Shinohara (Shinshu University)

“Voluntary participation and the provision of public goods in large finite economies”

(Joint paper with Hideo Konishi)

Yukihiro Nishimura (Yokohama National University)

“Unit-by-unit Voluntary Participation in Public Goods Experiments” (Joint paper with Tsuyoshi Nihonsugi, Naoko Nishimura, Tsuyoshi Saijo, Ryusuke Shinohara, Takafumi Yamakawa, and Takehiko Yamato)

Monday, January 12

10:00-12:00 Lecture 4: Boundedly Rational Decision Making Part 4

Paola Manzini

Lunch

13:30-15:30 Session 5: Strategy-Proofness and Strategic Complexity

Chair: Manabu Toda (Waseda University)

Hidekazu Anno (Waseda University)

“Second best efficiency of strategy-proof allocation rules and a characterization of the uniform rule with many commodities”

Shin Sato (Keio University)

“On strategy-proofness under linear dichotomous preferences”

Nozomu Muto (Hitotsubashi University)

“Strategic Complexity and the Core”

16:00-17:20 Session 6: Social Preferences on Infinite Utility Streams

Chair: Tomoichi Shinotsuka (University of Tsukuba)

Takashi Kojima (Waseda University)

“Q-anonymous social welfare relations on infinite utility streams” (Joint paper with Kohei Kamaga).

Kohei Kamaga (Waseda University)

“On the leximin and utilitarian overtaking criteria with extended anonymity” (Joint paper with Takashi Kojima)
