

Econometrics  
Homework 2  
Due 9/30/2004

Daiji Kawaguchi  
College of International Studies

These are questions from simple regression analysis. You might want to review Chapter 2 of Wooldridge's textbook. You may work with your friends, but you have to write your own answer and submit it. Just copying your friends' answer will be harshly punished. **You must submit your answer in English. Please submit your answer in class.**

Problem 1

Solve Problem 2.1 in page 61 of Wooldridge.

Problem 2

Solve Problem 2.12 in page 65 of Wooldridge.

Hints:

(i) “Equation form ” means the format that is used in (2.46) in page 45 to report the regression result. Use the dataset available from my web page.

Problem 3

Solve Problem 2.13 in page 65 of Wooldridge. Again use the dataset available from my web page.
