Associate Editors
Kaushik Basu (Cornell University); Jess Benhabib (New York University); Eric Bond (The Pennsylvania State University); Kwan Choi (Iowa State University); James Friedman (University of North Carolina); Masahisa Fujita (Kyoto University); Shimichi Fukuda (The University of Tokyo); Tatsuo Hatta (Oksaka University); Charles Horioka (Osaka University); Katsuya Kamiya (The University of Tokyo); Yoshitsugu Kanemoto (The University of Tokyo); Kunio Kawamata (Keio University); Ali Khan (Johns Hopkins University); Laurence Kotlikoff (Boston University); Lung Fei Lee (Hong Kong University of Science and Technology); Michihiro Ohyama (Keio University); Colin McKenzie (Osaka University); Tapan Mitra (Cornell University); Prasanta Pattanaik (The University of California, Riverside); Debrag Ray (Boston University); Gary Saxophone (The University of Michigan); Alan Stockman (The University of Rochester); John Sutton (London School of Economics); Jacques Thisse (CORE, Université Catholique de Louvain); Toshihisa Toyota (Kobe University); Taku Yamamoto (Hitotsubashi University)

The Review is published by the Japanese Economic Association and is open to all researchers in the field of economics. Non-members as well as members of the Association are welcome to submit unpublished research articles for editorial consideration. The Review will be published four times a year in March, June, September and December. Prospective contributors may find the submission procedure on the inside back cover of each issue of the Review. The Review is sent to all members of the Japanese Economic Association four times a year. Membership fees for the Association are ¥10,000 a year. A single copy of the Review may be obtained for ¥1,400.

The 1999 Far Eastern Meeting of the Econometric Society 340

The Abe Fellowship Program 341
THE 1999 FAR EASTERN MEETING OF THE ECONOMETRIC SOCIETY

The 1999 Far Eastern Meeting of the Econometric Society will be held in Singapore, July 1–3, 1999. The Department of Economics and Statistics, National University of Singapore is the organizer of the Meeting.

The Meeting is open to all economists and econometricians, including those who are not members of the Econometric Society.

The Program will consist of invited lectures and contributed papers in economics and econometrics, both theoretical and applied. The Keynote Speakers for the Meeting are: Professor Robert Wilson (President Designate, 1999), Professor Clive Granger, Professor Peter Phillips and Professor Kiminori Matsuyama.

The Program Committee consists of:
Basant Kapur, National University of Singapore (Co-Chair)
Kimio Morimune, Kyoto University (Co-Chair)
Yiu-Kuen Tse, National University of Singapore (Deputy Chair)
Tilak Abeyesinghe, National University of Singapore
Anil Bera, University of Illinois, Urbana-Champaign
Soo-Hong Chew, Hong Kong University of Science and Technology and University of California, Irvine
Bhaskar Dutta, Indian Statistical Institute
Hian-Teck Hoon, National University of Singapore
Maxwell King, Monash University
Chung-Ming Kuan, National Taiwan University
Lung-Fei Lee, Hong Kong University of Science and Technology
Kian-Guan Lim, National University of Singapore
Michael McAleer, University of Western Australia
Kazuo Nishimura, Kyoto University
Sam Ouliaris, National University of Singapore
Joon Y. Park, Seoul National University
Garry Phillips, University of Exeter
David Yeung, University of Hong Kong
Junxi Zhang, National University of Singapore

Prospective contributors are invited to submit abstracts of their papers before October 5, 1998. The abstract should not exceed 300 words, and should include the name, affiliation, correspondence address, fax number and e-mail address (if available) of the author(s), as well as up to 6 keywords and the JEL area classification. The full manuscript should be submitted not later than January 11, 1999. Decisions will be based on the full manuscripts. Abstracts and full manuscripts (in duplicate), as well as any queries, should be sent to Professor Basant Kapur, Department of Economics, National University of Singapore, Kent Ridge, Singapore 119260 (fax no: 65-7752646; e-mail: ecshead@nus.edu.sg). Further information and future updates are available on the Internet at:

THE ABE FELLOWSHIP PROGRAM

The Social Science Research Council (SSRC), the American Council of Learned Societies (ACLS), and the Japan Foundation Center for Global Partnership (CGP) are accepting requests for applications for the 1998–99 Abe Fellowship Competition.

The Abe Fellowship Program’s aim is to encourage international multidisciplinary research on topics of pressing global concern in order to foster the development of a new generation of researchers interested in long-range policy-relevant topics. The Abe Fellowship Program seeks to encourage a new level of intellectual cooperation between the Japanese and American research communities in order to build an international network of scholars committed to and trained for advancing global understanding and problem solving.

- Applications are welcomed from scholars and non-academic research professionals who propose research projects in the social sciences or the humanities relevant to any one or combination of the following three themes: global issues, problems common to advanced industrial societies, and issues that relate to improving US–Japan relations. Priority is placed on projects which are contemporary, policy-relevant, and comparative in nature.
- Abe fellows are eligible for up to 12 months of full-time support for research and fieldwork. Terms of the Fellowship are flexible; however, it is expected that at least one-third or more of Fellowship tenure will be spent in residence abroad in Japan or the United States. Fellowships are for projects by individual researchers only.
- Abe Fellowships are open to American and Japanese citizens, as well as other nationals who can demonstrate strong and serious affiliations in the research communities of the US and Japan. Applicants must hold a Ph.D. or the terminal degree in their field, or have attained an equivalent level of professional experience. Applications from researchers in professions other than academia are welcome. Previous language experience is not a prerequisite for this Fellowship.

Application forms may be obtained from the Social Science Research Council. The deadline for submission of applications is September 1 annually. For further information or to request an application please contact:

Instructions to Contributors

1. Manuscripts and editorial communications should be sent in quadruplicate to The Editors, The Japanese Economic Review. The Institute of Statistical Research. 1-18-16 Shimbashi, Minato-ku, Tokyo, Japan 105.

Manuscripts should be written in English, and should be accompanied by a letter of submission stating that they are original unpublished work, not submitted for consideration elsewhere. Authors should supply an English abstract not exceeding 100 words and the JEL classification number(s).

Upon acceptance of an article, author(s) will be asked to transfer copyright of the article to the Japanese Economic Association. This transfer will ensure the widest possible dissemination of information.

2. Manuscripts should be typed on one side of the paper only, using double spacing throughout and leaving adequate margins on all sides. All pages should be numbered consecutively, and references, tables and legends for figures should be prepared on separate pages.

3. The first page of manuscripts should contain the following information:
   (a) the title;
   (b) the name(s) and affiliation(s) of the author(s); and
   (c) the address for editorial correspondence, including phone and fax numbers and an e-mail address.

4. Footnotes should be kept to a minimum and be numbered consecutively. Acknowledgements can be given before the list of references.

5. Where mathematical derivations are abbreviated, the full workings necessary for justifying each step of the argument should accompany all manuscripts of a mathematical nature in order to assist referees. These workings will not be published.

6. In choosing mathematical notation, the following rules should be observed in order to avoid unnecessary delays and reduce printing expenses.
   (1) Avoid unusual symbols when common usage will do without ambiguity. e.g., use $\hat{a}$ instead of $\breve{a}$;
   (2) Avoid notation which requires setting in small fonts e.g., use $x_i(t)$ instead of $x^t_i$;
   (3) Avoid fractions in the $\frac{a}{b}$ form when $(a/b)$ form will do;
   (4) Avoid expressions in the $e^{(x)}$ form when $f(x)$ is complex, e.g., use $\exp \left\{ -(x^2 + y^2)/a^2 \right\}$ instead of $e^{-\frac{r^2+2}{r^2}}$;
   (5) Avoid $\frac{df(x)}{dx}$ or $\frac{\partial^2 f(x)}{\partial x_1 \partial x_2}$ notation where $f'$ or $f''$ will serve without any ambiguity;
   (6) Reduce the heights of expressions such as $\sum$ and $\prod$ by using e.g., $\sum_{i=0}^{\infty}$ instead of $\sum_{i=0}^{\infty}$;
   (7) Use abbreviations for complex expressions which appear frequently.

7. Statistical tables and diagrams should be neatly prepared with clear explanations so that the reader can understand their meaning without hunting in the text for explanations.

8. Bibliographical references should be accurate, and follow the style and punctuation in the following examples:

References

Citation of references in the text should be by author(s) followed by parenthesized Arabic numerals denoting the year of publication, as Aitchison and Brown (1957), Arrow (1951, Theorem 1). Panzer and Willig (1977b, p. 488), etc.

9. Manuscripts that do not conform to these requirements may cause unnecessary delay in processing and may have to be returned to the authors.
