Call for Papers  471
THE 2001 FAR EASTERN MEETING of Econometric Society will be held at Kobe University, Kobe, Japan, 20–22 July 2001. The meeting will be organized in collaboration with the Japanese Economic Association.

The programme will consist of invited and contributed papers that represent a broad spectrum of theoretical as well as applied economics and econometrics. The meeting is open to all economists including those who are not currently members of the Econometric Society.

Prospective contributors should submit the following items:

1. an abstract not exceeding 300 words and a cover letter not later than 15 December 2000;
2. a full paper not later than 15 February 2001.

They should be sent to

Professor Fumio Hayashi
Co-Chair of the Program Committee
Department of Economics
University of Tokyo
7-3-1 Iongo, Bunkyo-ku
Tokyo 113-0033, Japan
E-mail: fem2001@e.u-tokyo.ac.jp

The committee encourages, but does not require, electronic submission to the above e-mail address as a PDF file. The cover letter must include: (1) the name (with the family name capitalized), affiliation, correspondence address, fax number and e-mail address (if available) of the author(s); and (2) the title of the proposed paper with its classification number according to the JEL area classification, and up to six keywords.

Final decisions will be made on full papers.

Limited travel assistance will be available for those presenting papers. Those wishing to apply for travel assistance should request an application form when they submit their proposed paper.

The rest of the Program Committee consists of:

Hideyuki Adachi, Kobe University (Co-chair)
Kanemi Ban, Osaka University
Shen-Cheng Hu, Academia Sinica, Taiwan
Michihiro Kandori, University of Tokyo
Basant Kapur, National University of Singapore
Andrew Levin, Federal Reserve System, US
Justin Lin, Peking University and Hong Kong University of Science and Technology
Pak Wai Liu, The Chinese University of Hong Kong
Ryozo Miyao, Kobe University
Kazuo Nishimura, Kyoto University
Joon Y. Park, Seoul National University

The Local Arrangement Committee is chaired by Professor Tetsuya Kishimoto, Kobe University, and the Fund-Raising Committee by Professor Koji Shinjo, Kobe University. Their address is: Department of Economics, Kobe University, Rokkodai-cho, Nada-ku, Kobe 657-8501, Japan.

Instructions to Contributors

Manuscripts should be written in English, and should be accompanied by a letter of submission stating that they are original unpublished work, not submitted for consideration elsewhere. Authors should supply an English abstract not exceeding 100 words and the JEL classification number(s).

Upon acceptance of an article, author(s) will be asked to transfer copyright of the article to the Japanese Economic Association. This transfer will ensure the widest possible dissemination of information.

2. Manuscripts should be typed on one side of the paper only, using double spacing throughout and leaving adequate margins on all sides. All pages should be numbered consecutively, and references, tables, and legends for figures should be prepared on separate pages.

3. The first page of manuscripts should contain the following information:
   (a) the title;
   (b) the name(s) and affiliation(s) of the author(s); and
   (c) the address for editorial correspondence, including phone and fax numbers and an e-mail address.

4. Footnotes should be kept to a minimum and be numbered consecutively. Acknowledgements can be given before the list of references.

5. Where mathematical derivations are abbreviated, the full workings necessary for justifying each step of the argument should accompany all manuscripts of a mathematical nature in order to assist referees. These workings will not be published.

6. In choosing mathematical notation, the following rules should be observed in order to avoid unnecessary delays and reduce printing expenses.
   (1) Avoid unusual symbols when common usage will do without ambiguity. e.g., use \( x^* \) instead of \( x^* \);
   (2) Avoid notation which requires setting in small fonts. e.g., use \( x_i(t) \) instead of \( x_i \);
   (3) Avoid fractions in the \( \frac{a}{b} \) form when \( (a/b) \) form will do;
   (4) Avoid expressions in the \( e^{(a)} \) form when \( f(x) \) is complex. e.g., use \( \exp \left\{ -(x^2 + y^2)/a^2 \right\} \) instead of \( e^{-(x^2+y^2)/a^2} \);
   (5) Avoid \( \frac{df(x)}{dx} \) or \( \frac{\partial^2 f(x)}{\partial x_1 \partial x_2} \) notation where \( f^* \) or \( f_{12} \) will serve without any ambiguity:
   (6) Reduce the heights of expressions such as \( \int, \sum \) and \( \prod \) by using, e.g., \( \sum_{i=0}^{\infty} \) instead of \( \sum_{i=0}^{\infty} \);
   (7) Use abbreviations for complex expressions which appear frequently.

7. Statistical tables and diagrams should be neatly prepared with clear explanations, so that the reader can understand their meaning without hunting in the text for explanations.

8. Bibliographical references should be accurate, and follow the style and punctuation in the following examples:

References

Citation of references in the text should be by author(s) followed by parenthesized Arabic numerals denoting the year of publication, as Aitchison and Brown (1957), Arrow (1951, Theorem 1), Panzer and Willig (1977b, p. 488), etc.

9. Manuscripts that do not conform to these requirements may cause unnecessary delay in processing and may have to be returned to the authors.
